Re: 1100-EM-1 Feasibility Study Phases 1 and 2 (FS 1/2) Report

Dear Mr. Stewart:

Based on several conversations and meetings, it appears that the U.S. Department of Energy (DOE) is anticipating that the submittal of the FS 1/2 report will be delayed beyond April 26, 1991. To ensure that the proper documentation is in place, if the DOE will not meet the April 26, 1991 date, a written request with adequate technical justification for extension of the date should be submitted to this office. Until then, we will expect to receive the revised FS 1/2 report by April 26, 1991.

If you have any questions, please contact me at (509) 376-3883.

Sincerely,

David R. Einan  
Unit Manager
